

“Project Learn & Serve” in combination with the Engineering Technology Club

We are currently creating hand crafted pen & pencil sets to raise funds for our community-service project.

Our community service-project includes purchasing a special K9 “Deployment and Heat Alert System” that will be installed into a Laconia Police cruiser designated for the K9 Unit.

The Heat Alert System is designed to assure the dog is safe & doesn’t get overheated while being kept in the back of the cruiser.

In addition to the “Alert System”, we would like to provide an emergency medical kit for any “late night” cuts, scrapes, etc. when immediate help is not available.

The Laconia K9 unit consists of Officer Finogle and his dog “Jago” shown below.

If you would like to donate to this project, please flip over to the back side of this document for the donation/order form.

For your donation, you can receive a custom made pen/pencil set shipped in a gift box. Please review the following items and note the sets can be made from the following descriptions:

\$50.00 donation: Silver Satin or Black Satin Finish

\$75.00 donation: 24k Gold Plate

\$100.00 donation: Rhodium Plate (member of the Platinum group of precious metals and comes with a certificate of authenticity)

Note: medical, music, golf & fish clips are only available in gold

Description of what you would like:

(example – Rhodium, dark wood, thick on one end like item #1)

(example – 24k, fish clip, slim like item #2)

YOUR DESCRIPTION: Please circle
 Finish: Black – Satin - 24k Gold - Rhodium
 Wood Color: Light Medium Dark
 Style: Slim both ends - Bump on one end
 Optional Clip: Fish – Music – Medical – Golf
